Perfection starts here.™

Create a dynamic wall hanging quickly and accurately using one of Linda's favorite notions for half square triangles. Believe it or not, this fun design is made using just one block with some of the components brought out into the border. We'll be using Linda's favorite triangle paper that makes creating perfect (and accurate) half square triangles go super-fast, and also keeps you organized. This can very easily be made larger if you so choose.
