This is a technique workshop to master the Curvy Log Cabin block, a modern twist to a traditional block. A great block that adds a curvy illusion to your quilts without piecing curves! During the workshop you will utilize a technique developed by Deb Tucker from Studio 180 Design. This strip piecing and trim-to-perfection technique utilizes the Tucker Trimmer III™ Tool and the Curvy Log Cabin Technique Sheet. These allow all quilters to achieve precision in their Curvy Log Cabin Blocks. Quilters will create two 7" Scrappy Curvy Log Cabin Blocks.
