#154503 - Fiber Art

In this workshop, students will create a 5" x 7" beach scene using fusible-backed fabric and a reference photo of their choice. Kestrel will provide compositional guidelines to follow before turning students loose. This workshop is particularly exciting because there is no pattern and no set kit, so every student produces a uniquely different result. The kit includes an assortment of fabric, but every kit is different and students are encouraged to trade and share fabric amongst themselves. To finish the artwork, each student will receive a picture mat and cellophane sleeve for easy transportation and framing of their art.
