#22501 - Lecture/Demo

Are you wanting to advance your teaching skills by designing patterns, getting a website up and running, or publishing your own designs? This informative lecture and digital presentation will help you navigate Adobe's Creative Cloud. David Taylor's 35+ years as a graphic designer are at your disposal during this class to get you started. Topics include Photoshop, Illustrator, Acrobat, Dreamweaver, and InDesign. Supplies are not required for a lecture/demo, although you may want to bring a pen and paper to take notes.
