Improvitational Foundation Piecing

Karen K. Stone

All Levels

Friday, 8:30 a.m. - 4:00 p.m.

Room: Cooper Creek 1

#27110f - Piecing

Let's face it - making stuff up is fun. Karen will help you find your improv wings, with just enough structure to guarantee a wonderful outcome. The pictured quilt, "Untitled" (a play on silk scraps which never became neckties), was constructed improvisationally. The printed pfp pattern came later, and like working with neckties, is also an option in class. Registration for this class includes show admission for Friday.
