#28510 - Quilting/Finishing-HOME MACHINE

Feathers are amazing! They can be stylized in so many ways and they are incredibly versatile. Let Gina show you how to find your own unique style in your feather work. There are a variety of techniques for drafting and stitching feathers that can be used in different applications from block and border motifs to freehand work - experiment with them all! Then explore the exciting world of filler designs, which will make your feathers jump right off the quilt. Gina will show you how to avoid backtracking when an heirloom look is desired and how to select threads and achieve control for intricate work.
