**#341802 - Lectures**

Although the emphasis in this lecture/demo class is directed to smart phone users, the guidelines and principles presented are applicable to any camera. Take your photos from “blah” to “ahh” and beyond. A portion of this class covers how to take better quilt photos—especially for show submissions and online display. You’ll walk away instantly wanting to take advantage of what you absorbed in class. There’s so much included that you’ll be glad there’s a color syllabus to take away. Supplies are not required for a lecture, although you may want to bring a pen and paper to take notes.
