DOMESTIC MACHINE**

Quilting rulers or templates are amazing tools! Gina will show you how to use them to create incredible free-motion designs. You will discover how to hold them for better control and accuracy, how to use the registration marks on the rulers for angles and combined designs, and how to set up your machine. You will leave class with excellent techniques and a new supply of quilting designs. Gina will also show you how to use rulers to stylize your quilting designs with accuracy. You will discover how to gain versatility with each tool and adjust them to fit the size of your quilting space. She will also discuss how to use rulers with grid stencils as a reference for perfect placement when creating designs. All of Gina's workshops are taught in a low-stress environment where students can work at their own pace and are encouraged to discover their creativity and have fun.
