Kaleidoscope quilt designs showcase the illusion of curves with straight line sewing. The Kaleidoscope block has only 12 pieces per block. It is easy enough for confident beginners, but the design variations and possibilities tantalize even the most advanced quiltmakers. The From Marti Michell Kaleido-Ruler includes guidelines for cutting all of the pieces in the block in many sizes. Best of all, Marti brings rulers to class for you to use. The class covers the basic cut and sew process, but includes a short trunk show to show off the versatility of the Kaleidoscope block.
