

## Fat Quarter Log Cabin: A Scrappy Quilt

Unlike scrap quilts that feature a different fabric in every strip of a block, this scrap Log Cabin quilt depends on an orderly repetition of fabrics within each block. Learn a great method for cutting and sewing these blocks fast and square. Start with 4 fat quarters and in less than 2 hours you can cut and sew 4 13" blocks. They can be the start of a big quilt or a very nice 30" sq. wallhanging. It is a great technique, but you can't make just one block, you can only make 4 at a time!
