Create miniature beach seascapes using Karen's "Layered Curves" technique. Second in the Accidental Landscape pattern series, these little beach scenes are quick and easy to make, no templates, no fuss – just free form rotary cutting and topstitched edges. The results are always a pleasant surprise. For additional texture, learn how to embellish your little beach scene with lace, yarns, and beads. Finished size is approx. 8" x 12" (not including borders).
