Deck the Halls, not with boughs of holly, but with a bough of fir and hanging Christmas baubles. Create your own unique wall hanging that will be treasured for years to come. The technique easily adapts to make place mats, postcards, and more. Machine embroidery thread and a thread painting technique will be used to create your own fir bough from which to “hang” bonded baubles. Your kit includes everything you need – fabric for background, backing, and binding; batting; a choice of prepared baubles; along with metallic and machine embroidery threads. There will even be a titanium topstitch needle included – you will be amazed at the difference it makes to your stitching!
