#448140w - Quilting/Finishing-LONGARM

New to longarm quilting and not sure where to start? This workshop will take the fear out of using your machine. It's easy to be overwhelmed with the thought of buying a longarm and learning how to use your new, inspiring (but also terrifying and expensive) machine. If you're scared to touch your machine, or just unsure where to start, join Kris for a hands-on introduction to longarming that will have you up and quilting in no time! Kris takes the fear out of using your machine, starting with the basics. She will teach you how to load the machine and the importance of a square backing. She'll cover thread choices, batting, needle size, common tension issues, and more. Kris's stress-free approach will have you feeling confident and excited to start playing. One person per machine. Same course as #448141.

Registration for this workshop includes show admission for Wednesday.
