#48120t - Quilting and Finishing

There's something really special about wrapping up in a T-shirt quilt, feeling all those memories surround and comfort you or someone you love. In this class, you'll learn to make that T-shirt quilt, quilting one shirt at a time! This approach has so many advantages! You can easily quilt one shirt at a time YOURSELF on your domestic machine, add embellishments such as appliqué or decorative stitching, enhance the memories of each event by telling its story in the quilting design, make smaller quilts or pillows with a few T-shirts, then add more as your T-shirt collection grows. Learn how to: Quilt one T-shirt at a time on your domestic or longarm machine, speed-quilt by combining piecing and quilting in one step. Calculate quilt size and yardage needed, and join quilted blocks to build your quilt, and more. For quilters who have not done free-motion quilting before, we'll cover FMQ basics of a few simple patterns. Registration for this class includes show admission for Thursday.
