Sashiko Rulerwork Sampler Quilt Kate Quinn

Beginner, Intermediate

Thursday, 1:00 - 4:00 p.m.

Room: Grand Gallery Overlook EF
#48508 - Quilting and Finishing

Sashiko designs are elegant and timeless, fitting into both traditional and modern quilt projects. This rulerwork class uses grid foundations to build the framework for these classic Sashiko elements. Designs include the classic clamshell with 2 variations, the Persian Tile Single and Double design, the Puzzle design, and a mastery design using the previously learned skills. Other topics include using grid stencils and Pounce pads, choosing the best threads, and making the designs fit into areas of a quilt. Basic template skills and machine setup are also included. This is a good way to get started both designing quilted elements and learning to use templates for quilting.
