Room: River Overlook AB

#48519 - Quilting and Finishing - LONGARM

Curious, just starting, or beyond frustration with ruler work? Let Geraldine introduce you to ruler work in a way you haven't tried before. No more wrestling with your quilt, or guessing games trying to figure out how to recreate a design you want to try. Begin simple and let your creativity guide you. Before you know it, you'll be addicted! In this workshop, you'll learn machine techniques, get to know your tools and how to make them work for you, as well as learning some great time-saving techniques. Learn beginner friendly ruler-based straight and curved designs that can be used on almost any quilting project. Techniques include edge-to-edge quilting, blocks, borders, and sashing, using just one ruler. You'll be able to apply the skills you learn to master other quilting rulers with confidence. Go from practice quilt sandwich to quilt using the optional pre-printed fabric panel. Two students per machine.
