#48520 - Quilting and Finishing - LONGARM

Proudly Sponsored By

We will take an in-depth look at combining designs to make your quilting features pop! Feathers, swirls, and circles as well as straight and curved lines can all be combined to give your quilt top that extreme custom look. From drawing basic shapes, grids, and feather spines, we will look at how stitching order, echoing, and more will truly transform your top! It would be beneficial for students to be familiar with free-motion feathers and ruler work. Two people per machine.
