

**Give it a Scrap Slap: Using Tones & Value**  
**Beth Helfter**

All Levels

Thursday, 8:30 - 11:30 a.m.

Meeting Room 105

**#55502 - Color & Design**

Using a variety of fabrics in various tones and values, all class participants will rework the same block using different directions on color, value, contrast, and fabric placement to discover how changing up those elements can change the entire look of a block. All fabrics are precut and brought to class and put into a fabric pool. In the end, students are amazed how small changes can create major impact to a block or a quilt.
